Journey from the airport:

All rental car counters are a few yards ahead of the exit of the baggage claim area. As soon as you leave the rental car parking, you're already on the freeway. Follow it until you see **Nordeste** on a destination board.

Then **hold on to direction Nordeste**. **Change the freeway** near Lagoa (**exit 4, direction Nordeste**). That freeway leads across the island and will soon be a highway with oncoming traffic and partly three lanes. It follows the north coast in eastern direction.

After approx. 40 km / 25 mi, leave the highway at exit 21 to Lomba de São Pedro. At the end of the feeder, **turn right** (direction Nordeste again).

Follow the street after the town-sign of Lomba de São Pedro for about 1.2 km = 3/4 mile, until you see **two big palmtrees** on the left and the signpost **Lomba de Baixo**. Enter **to the left** and stop immediately on the right side. That is the Casa Sillanova.
